Designed to Scale

HCGi builds optimal system designs from Huddle rooms, classrooms and auditoriums to complex video conferencing and streaming surveillance solutions. We combine solutions from the leading manufacturers with an experienced installation team. Most installations address your aesthetic needs as well as the potential for disruption. Our many references can verify our expertise in delivering a clean installation, completed on time. Our solution architects bring over 20 years of experience to this practice.

Conference room solution

Crestron Mercury is the only UC and AV all-in-one tabletop solution that supports any web collaboration application. By combining all the must-have conferencing and collaboration tools in one easy-to-use console, Mercury enables people to work together regardless of location or conferencing application. Use any soft phone, web conferencing, or UC application. Local universities and organizations in Maryland are currently using Mercury for their conference, huddle, and meeting rooms.

HCGi (formerly Hartford Computer Group, Inc.) has been a trusted name in delivering technology to Maryland institutions, for twenty-two years. In 2012, HCGi added additional resources to provide design and installation service for our Audio-Visual solutions. From industry leaders Creston, Extron, Epson, Infocus and others, HCGi has the experience to provide a complete solution. HCGi currently holds the following credentials: State of MD Contract and MEEC AV Contract. HCGi is a MD Certified MBE, Woman-Owned business. MD SBR # SB12-6726
